Comprehensive, planned renovations to **Southwick Place Townhomes** (50 units) to create more energy-efficient housing for residents, to be more modern in appearance and to provide a more desirable living environment.

Renovations to include:

- New roofing on all buildings
- New energy-efficient windows
- New furnaces and air conditioning units
- New kitchen and bath cabinetry and countertops
- New energy-efficient appliances
- New floor coverings and window treatments
- Replacement of sidewalks and street repairs
- Additional parking to be added
- Anticipated completion – June, 2020
